Thanks for keeping me in the loop, Rebecca. In years past, we've been pretty successful getting everyone pinned down to a day in January where we could combine the 128a State Response Grant and MSCA Grant annual meetings. Last year the meetings seemed hurried, because we've started to include broader strategy discussions on the CRMS and Yerington on top of discussions for the Brownfields Program and now the AML Program, which the PA/SI Grant has been supporting. We're thinking it might be nice to coordinate this year with folks like Clancy to discuss the AML Program at a somewhat higher level and also try to coordinate with Harry Allen and Dan Meer to discuss the Town of Eureka case and our Environmental Assistance Program, which is going through some transition. I think we'd like to plan on one and a half to two days this year to make sure we're touching base with all the necessary folks from EPA who support us both technically and through cooperative grants.

I've cc'd a number of additional people that I'd like to be included in these meetings, if available. Dante, Tom and Eugenia, I'm hoping you can help us coordinate with people in your groups for these meeting over a two day period in January in San Francisco. I'll work with folks here to come up with some possible dates...thanks.

Hey Dante,

Thanks for the update regarding the award. We'll have to schedule the annual meeting for January. My understanding is that we are meeting in person sometime that month. I'll check with Jeff and Greg about the date and time. The CRMS portion of that meeting will include Dave.

Hi Rebecca,

I wanted to provide you with an update on your funding, and check-in with you about our quarterly & annual meetings/calls that we are supposed to do (per the workplan). We currently have \$30k programmed for Carson River are working on getting the remaining \$58k. We will then process an award of \$88k (\$87k+change) to your MSCA. Andy is following up with those funding arrangements, and then I will be processing the award.

With regards to our quarterly and annual meetings, let's go ahead and set-up a call to review progress on the two sites. Can you check schedules with your key project managers and let us know when you guys would be available? A 1-hour window should be sufficient. If we can't get it done before the holidays, then lets do it in January.

Thanks, and I'll keep you informed about the timing of the funding.

Dante Rodriguez
